Tap the chat button in Settings, or join our Discord server to live chat directly to developers! x Jan 29, 2019 version 2.22 Christmas event is over! Thank you all for taking part. The next update will have some great new features for all of you! For a simple zombie-themed tap game, it's a pleasure to tap away and dig deeper to see what a new zombie open! Although I feel like some cool concepts I can think of.1.) I see you only have Earth and three stages (which I haven't reached yet) need different species of zombies based on stage or planets.2.) You need humans and other creatures to come through trying to attack your lab (which will only lower your brain capacity) so you can make a separate set of zombies to protect your lab and upgrade them.3.) A minor thing, but it will be neat what exactly the zombies do when they leave the lab, as some news reporters report on the outbreak (which is when humans come in)except that this game is good to keep guys working well! Hi Jattermanfish, such good feedback - thanks!! We have just added space zombies to having space helmets. We explore cooler things we can do too... 2) Wow to this idea, it's a great addition but will be a cool one!3) Haha loves this idea! We'll add that to our planning discussions to see what's possible. .) still enjoying the new updates! If you like idle tap games then this is definitely the one you should try, the game is perfectly balanced and allows for hours of fun! I haven't had any complaints about it so far and it even allows you to communicate with the team if you have any questions or suggestions and I think that's a great feature! Five stars! To get started, let me say that the staff is lovely. I experienced a glitch in my second luxury, and I got a personal person In 12 hours. The game is fun, up to a point. You have your basic click/idle game points, you have the option of watching ads for enhancers (optional, they don't pop up, you choose if you want to see them). I'm up to 120 million respawn/luxury tokens now, and I haven't noticed any difference in zombie value from 80m to 120m. I'm not going to write a scathing review, because I don't thoroughly enjoy the product they created. I simply advise them to work on the math related to rebirth/regeneration. Hey Sweeney2391! Thank you for giving us this valuable feedback! As a two-man team we need all the help we can get and appreciate it. We're changing the math as we speak and hope to remove this blocker soon! Thanks again. .) The developer, Fumb Games Ltd., did not provide details about its privacy practices and data handling to Apple. For more information, see the developer's privacy policy. Developer will be required to provide privacy information when they submit their next app update. Developer Site App Support Privacy Policy Policy
